Why Use Rystora® Scar Sheet?

100% Medical Grade Silicone
Made with 100% medical grade silicone, Rystora® Scar Sheet is odorless and tasteless, do not support bacteria growth, and do not stain or corrode skin or other materials.

Minimize Skin Irritation
Rystora® Scar Sheet is thin, flexible and breathable, mimicking the natural properties of the skin.

Easy To Apply
Rystora® Scar Sheet is simple and easy to apply, and virtually painless to remove.

Elastic
The elasticity of silicone makes Rystora® Scar Sheet flexible and easy to apply to joint parts like elbow and knee.

Keep Skin Moisturized
Rystora® Scar Sheet locks moisture into the skin surrounding the scar, making skin softer and helping it restore more quickly.

Reusable
Rystora® Scar Sheet is washable and can be reused for at least 7 days, making it more cost effective than other silicone-based scar reduction products.

Rystora® Scar Sheet
Rystora® Scar Sheets are a revolution in scar treatment. Patented micro-pore technology achieves a perfect balance; locking the moisture into hardened tissue, while eliminating excess moisture. With Rystora's® exclusive technology the skin stays soft and rejuvenation takes place more rapidly. Rystora® pure medical grade silicone sheets are reusable, easy to apply and medically shown to reduce scar size, color, and discomfort.

PROVEN, SAFE, EFFECTIVE TREATMENT FOR SCARS NEW AND OLD.

Rystora® Scar Sheets are an easy to apply, painless treatment for scars that has been clinically shown to reduce the size and coloration of hypertrophic and keloidal scars.

QUICK RESULTS
In tests, most users experienced visible scar lightening and size reduction in only 8 weeks of use.

SUITABLE FOR A MOST PATIENTS
Rystora® Scar Sheets have been tested for use by those with sensitive skin and by patients from a wide range of ages.

SIMPLE TO USE
The sheets elasticated, transparent properties make them appropriate for use in many locations on the body. They are self-adhesive and can be cut down or combined to suit different scar sizes.

PROVED IN CLINICAL TRIALS
In a recent trial with 30 subjects, between the ages of 5 and 60, the use of Rystora® Scar Sheets resulted in visible improvement in the scars of 90% of the participants.

UNIQUE PATENTED TECHNOLOGY
Made with 100% medical grade silicone, Rystora® Scar Sheets have a patented micro-pore structure that balances the moisture content of the tissue. Locking in moisture where needed and eliminating excess moisture, resulting in softer tissue and quicker rejuvenation.
